## KISHAN KUMAR KASHYAP

### JAVA BACKEND DEVELOPER

#### CONTACT

8349722992

corejava27@gmail.com

<https://hello-kishan.github.io/Portfolio-v2.0/>

Sector-63, Noida, Uttar Pradesh

#### KEY SKILLS

- Core Java
- Spring Boot
- Hibernate
- Spring Security
- JWT Token
- Microservices
- Rest APIs
- MYSQL
- Agile
- Debugging
- Spring MVC
- Maven
- Junit
- IntelliJ IDEA / STS
- Postman
- Git & Github

#### EDUCATION

##### DEGREE - ( 2013 - 2017 )

- Bachelor of Engineering (EE)
- RGPV - VITS

##### V.I.P CAMPION HR,SEC SCHOOL

- 10th : M.P. Board : 2011
- 12th : M.P. Board : 2013

#### WORK EXPERIENCE

##### **SEO | TWDS | Noida | (Jan, 2025 - At Present)**

Results-driven SEO Specialist with expertise in backlink creation to enhance website authority and search engine rankings. Skilled in forum postings, classified ads, guest posts, commenting, pinging, search engine submissions, bookmarking, article submissions, and social sharing. Focused on improving website visibility, driving organic traffic, and optimizing digital presence through strategic SEO techniques.

##### **Java Developer | PSA | Bangalore | ( Aug, 2023 - Apr, 2024 )**

Proficient in understanding requirement documents and ER diagrams for effective project development. Skilled in Spring Boot, creating Entity Classes, and implementing Spring MVC for REST APIs. Secured APIs with Spring Security & JWT, handled data validation, and optimized data access using JPA, Pagination & Sorting. Experienced in Excel/PDF report generation, integrating third-party APIs for OTP & notifications, and debugging. Leveraged Java 8 features (Stream API, Optional), conducted API testing with Postman & Swagger, and ensured robust exception handling. Strong in MySQL database design, querying, and optimization.

##### **Project - Flight Reservation System**

In this project, I developed key modules ensuring efficient functionality. The Flight Module supports CRUD operations, while User Authentication uses Spring Security with JWT. Email & OTP Services handle booking confirmations and password recovery. Search Buses is optimized with JPQL, and Ticket Generation uses iTextPDF for PDFs. A Payment Gateway is integrated for transactions. Data Validation ensures input integrity, and Code Refactoring leverages LOMBOK & ModelMapper. Additional features include a Blog Module, Rating & Review System, Passenger Module, and API Documentation. Currently, I'm working on the Bus Reservation Module to enhance user experience.

## OTHER EXPERIENCE

### **Back Office | City Cars | ( Feb, 2020 - July, 2021)**

1. Worked at **Agrawal wheels of motors ( Maruti Suzuki Arena)** in **Management Information System Department**.
2. Maintaining the record of **Dockets** on **Excel Sheet** and adding the Docket details on **Dealer Management System( DMS )**.
3. **Perform Car Billing on DMS**.
4. Managing and giving **Corporate offer** during billing.
5. Generating **E-way Bill** and Gate Pass for car Delivery.
6. Submitting the **reports** to the team leader.
